WQAS review for 101 issues - discussed independant claims with Vincent Trans regarding questions over whether they were in multiple statutory classes. It appears that the independant claims 1,10,17,21 and 37 are method claims and claim 25 is a computer program product on computer-readable storage media which is defined in the specification and does not include carrier waves or other signal media. Therefore the claims appear to be statutory.	1/22/08	JM
